# Belden & RF Connectors

# Cross Reference

## Cable to Connector Cross Reference

---

RF Connectors, Division of RF Industries, 7610 Miramar Road, San Diego, CA 92126-4202  
For product information call 800-233-1728 or (858)-549-6340, Fax: 858-549-6345  
E-mail: [rfi@rfindustries.com](mailto:rfi@rfindustries.com) Web: [www.rfindustries.com](http://www.rfindustries.com)

## HOW TO USE THIS MANUAL

This manual is organized first by Belden Cable groups and second by the types of RFI connectors available for those groups. The connectors are divided into subgroups by type.

Each connector listing contains the RFI part number, the description and the materials used for each connector. The materials listings consist of the body, shell, pin/contact, and dielectric.

The Cable Number Locator below is supplied for easy cross-referencing by cable number to page number. You will find a convenient cross-reference on Page 20 for determining the appropriate Belden cable for an Alpha cable.

**Example:**

*You need to know if RFI has an N Male Clamp Solder Plug for Belden 8241A.*

*Refer to the table below for Belden 8241A. Go to page 12. Under the heading for Belden 8221, 8241, 8241A, 8254, 8255, 8263, 9169, 9204, 9228, 9244, 9269, 9862 you will find RFN-1904-1N and RFN-1904-1S.*

From the description and the materials information you are able to determine if one of these connectors works for your application. The legend on page two explains the material codes used in this manual.

**Part numbers with an (\*) are special order only.** If you have special requirements, please contact RF Industries' sales department for assistance.

The information found in this guide was compiled using specifications that were current at the time of compilation. Please note that manufacturer's specifications are subject to change without notice. We therefore suggest that after using this guide to make your initial connector selections, you should obtain the latest product specifications from this cable manufacturer and RF Industries.
